GETTING THE BEST OUT OF THE CHEM CHEM SAFARI EXPERIENCE

For guests wanting a big game experience in the Tarangire, and only have 2 nights in their itinerary, we recommend Little Chem Chem or Forest Chem Chem. If guests have an extra night, we recommend staying 3 nights at Chem Chem Lodge to experience the exclusive WMA and include a day trip to the Tarangire. To experience both borders of this spectacular concession, spend 2 nights at Chem Chem Lodge and either Little Chem Chem or Forest Chem Chem with the Chem Chem Combo Offer.

SPACE AND PRIVACY – CREATING A SANCTUARY

Chem Chem Lodge, Little Chem Chem & Forest Chem Chem are in their own Wildlife Management Area of 20 000ha (50 000a) – no other lodge or residence share this land, so privacy is guaranteed. Nestled in the 'migration corridor' that separates the ancient landscape of Tarangire National Park and the tranquil waters of Lake Manyara.

1. **CHEM CHEM LODGE** is located on the edge of Lake Manyara in the far west of the Chem Chem private WMA. Here guests enjoy a sensual and exclusive safari and Maasai experience.
2. Connecting the west and east is the corridor. This area is protected for wildlife to move between the Lake Manyara and Tarangire National Parks.
3. **LITTLE CHEM CHEM & FOREST CHEM CHEM** are located on the eastern side of the Burunge - Chem Chem WMA, adjoining the Tarangire National Park. Here guests enjoy a big game safari experience with day and night drives and walking safaris in the privately managed WMA with exclusive access for guests of Chem Chem.
